

MLS 2026: the U23 standouts, position by position

The five best U23s at each position, where they sit among every MLS player in the role, and how they would compare with the England median.

855

players in the technical base

143

U23s with 500+ min

400

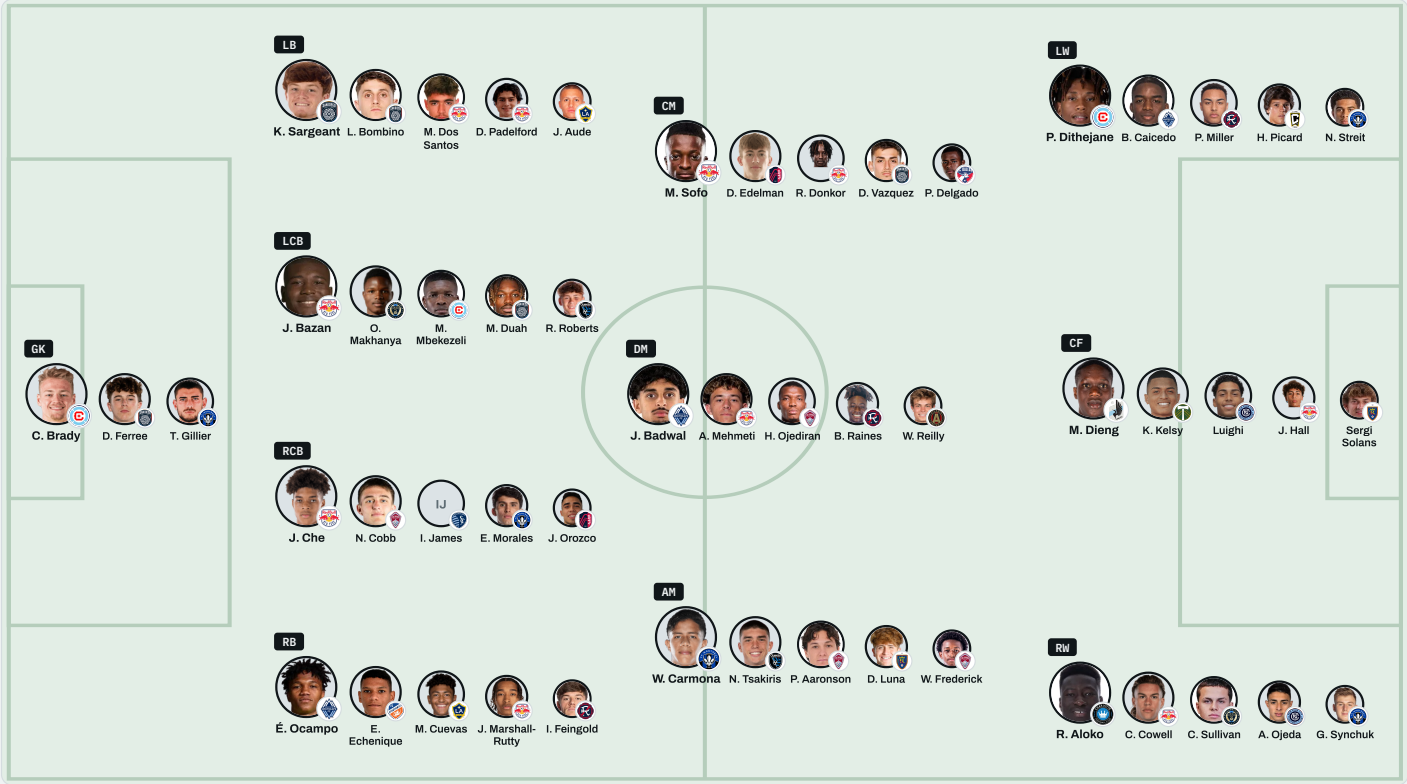

matches with physical tracking

11

positions

01 THE FIVE AT EACH POSITION

The five U23s at each position, side by side, ordered by overall index from left to right — the gaps between them are usually small. Click a player to open his detail page at the end of the report.

ABOUT THIS REPORT

WHAT IS INSIDE

01

The five per position

the pitch above: click a player to open his page

02-12

One section per position

Top 5 cards → where they sit in the league (scatter and strips) → metric-by-metric comparison with the MLS and England medians

13

Player detail

one page per player: 4 radars (× MLS median, × England median, × Crystal Palace reference, × Premier League reference) and the table with every metric

How to read

full method, references and sources

DATA AND CUT-OFFS

TECHNICAL

Wyscout · MLS 2026, season up to the 06/10/2026 export · 855 players · cut-off of 500+ min.

PHYSICAL

SkillCorner · MLS 2026 · 400 matches from 21/02 to 02/10/2026 · only 60+ min appearances, and the player needs 3+ tracked matches.

BENCHMARK

Premier League 2025/26 · position median, same minutes cut-off (technical) and 3+ matches (physical).

ASSUMPTIONS

U23

≈ 23 or younger, with 500+ minutes in MLS 2026.

Position

= the first one in Wyscout; full-backs, centre-backs and wingers compared with both sides together.

Percentile

against all MLS players in the role, any age.

Overall index

= average of technical and physical; goalkeepers technical only. It sets the Top 5 order.

Colours:

purple = better than the England median; green = at the MLS median or better; red = worse than it.

53

players in the report

21.2

years, average age

15

aged 20 or younger

10

with a small sample (under 900 min)

5

already left their MLS club

U23 PER POSITION

U23 / league total with 500+ min, any age · overall 25% are U23

GK 3 / 38 8%	RB 19 / 57 33%	RCB 16 / 62 26%	LCB 12 / 52 23%
LB 11 / 51 22%	DM 10 / 38 26%	CM 25 / 74 34%	AM 6 / 23 26%
RW 10 / 42 24%	LW 13 / 51 25%	CF 18 / 78 23%	

Only 3 U23 goalkeepers pass the minutes cut-off, so the position lists three names, not five.

Scope. Aged **23 or under** with at least **500 minutes** in MLS 2026. Position = first Wyscout position. Full-backs, centre-backs and wingers are compared with both sides together. Players under **900 minutes** are flagged as **small sample**; players who have left MLS show their current club. **Z. Gozo** (Real Salt Lake) is left out of the U23 lists because he has already been signed by Crystal Palace; he still counts as a league player in the strip plots.

Percentile. On each metric the player is compared with **all** MLS players in the same role, any age; the 90th percentile means he beats 90% of the league.

Indices. Technical = average percentile across the position's technical metrics. Physical = average percentile of PSV-99, sprint, HSR, total distance, high accelerations and high decelerations, averaged over matches of 60+ minutes; requires 3 or more tracked matches. Overall = simple average of the two. Goalkeepers have the technical index only.

England median. Premier League **2025/26** (full season): technical data from the Wyscout base used in the Ranking, 500+ minutes, same position rule; physical data from SkillCorner, by position group (full-back, centre-back, midfield, wide attacker, centre-forward), 3+ matches of 60+ minutes. It is a yardstick, not a forecast: the player is still measured in the MLS context.

Radar. Each axis has its own scale in real values, from the 2nd to the 98th MLS percentile at the position (the numbers on each ring); red is the player, the other colour is the reference; further out is better.

References. Premier League: the club's reference list by position (22/07/2026); for goalkeepers, not on that list, the four with the most prevented goals per 90. Crystal Palace: 2025/26 squad players who play the role. All with 2025/26 Premier League numbers.

Sources. Wyscout, export of 06/10/2026. SkillCorner, MLS 2026, 400 matches from 21/02 to 02/10/2026. Photos: Wyscout and Transfermarkt. Crests: Transfermarkt.
